## From the Chairman

As the health care system changes, Anthem is leading the way to help improve coverage and make health care services more affordable and easier for consumers to access and use. One element of the changing environment is the increasing role that our government plays in health care delivery. Government regulation and legislation not only impacts how we do business, but also determines how we develop trusted and caring solutions for the consumer.

Anthem remains committed to taking an active role in the public policy process at the federal, state and local levels. We do this by executing a public affairs strategy that is designed to educate federal, state and local officials on the issues that are core to our company and our customers. This includes:

- Conducting advocacy outreach that supports Anthem's position on the complicated issues that affect our company and members;
- Making PAC and corporate contributions where legally permissible; and,
- Engaging with others in our industry, trade associations, patient advocates and the broader business community to help advance our efforts.

In 2015, Anthem PAC was supported by more than 2,000 dedicated Anthem associates who, once again, played a critical role in ensuring Anthem's perspective was a part of the public policy conversation. Their voluntary contributions allowed the PAC to make \$698,500 in contributions to federal candidates and \$190,538 to state candidates. We are grateful for our associates' commitment to Anthem and to our customers and for the important role they play in helping connect decision-makers to Anthem's priority issues.

Transparency is important to Anthem. In the following pages, you will find a detailed financial accounting, as well as complete lists of the candidates and political committees that received Anthem PAC support and the permissible corporate political contributions made by Anthem. In addition, this report can serve as a helpful guide in understanding how Anthem participates in the public policy process and how Anthem makes contribution decisions.

As we enter into the homestretch of the 2016 election cycle, Anthem will continue to build quality relationships with lawmakers and potential lawmakers at the federal, state and local levels, and communicate how we at Anthem are working to transform health care with trusted and caring solutions.

Julie Goon  
Senior Vice President, Public Affairs  
2016 Anthem PAC Chair

# Policy on Participation in the Public Policy Process

## POLICY ON PARTICIPATION IN THE PUBLIC POLICY PROCESS

As a health benefits company, Anthem is committed to advocating public policy solutions that benefit our customers, stakeholders, associates, communities and the general public. Anthem believes that participation in the public policy process is critical to our core business because legislative and regulatory health care decisions made at the federal and state levels of government have a direct impact on our ability to serve our customers and compete in the marketplace. Our active participation in the political and public policy process and our advocacy on both legislative and regulatory proposals is an important means of maintaining a viable operating environment, enhancing shareholder value, and better serving our customers' and business' interests by creating a more informed policymaking process.

Anthem participates in the public policy process in several ways including executing a public and government affairs strategy designed to inform elected and appointed officials of key public policy issues related to the company's business; political giving through associate-funded federal and state political action committees; corporate political giving where legally allowed; and membership in health industry and business trade associations which help to advance our overall business objectives.

Anthem's participation in the process is guided by a set of core principles that govern our corporate policies on lobbying, political spending and general engagement in the public policy process.

## CORE PRINCIPLES FOR PARTICIPATION

- ★ Anthem engages on public policy issues that are core to our business and generally avoids engaging on non-enterprise related issues.
- ★ Anthem works with members of government, legislative and executive branch, others in our industry, the broader business community, our customers and the general public to advocate public policies that support our customers' interests and our business goals. The company's public policy positions and agenda are guided each year by our company's Mission, Objectives and Values.
- ★ In general, Anthem is supportive of public policies that promote competition and free markets in health care delivery and financing, that promote a role for the private sector in public programs, and that are in the best long-term interest for our customers, shareholders and Anthem.
- ★ Anthem supports the implementation of reforms necessary for the sustainability of the health care delivery and financing system that promote free market principles and advance the interests of our customers.
- ★ Political spending by Anthem, both with corporate dollars and through our political action committees, reflects the company's interests and is used to further our public policy positions and agenda and not the personal agenda of individual officers, directors or associates.
- ★ Anthem will not make political contributions based upon party affiliation, positions taken on other, non-enterprise related issues, contributions made in previous election cycles or client pressure. No campaign contribution will be given

# Policy on Participation in the Public Policy Process

in anticipation of, in recognition of or in return for an official act.

Anthem adheres to all federal, state and local laws and regulations governing the public policy process, including communications with elective federal and state officials, agency officials, or other legislative and regulatory officials for the purpose of influencing legislative or administrative action, and has established internal policies and procedures to ensure compliance with these requirements.

- ★ Anthem discloses contributions made and received in reports filed with the Federal Election Commission and the various state campaign finance offices, as required by law.
- ★ Management of Anthem's participation in the public policy process is the responsibility of the senior vice president of Public Affairs in accordance with Anthem's enterprise risk management framework. This position reports directly to Anthem's Chief Executive Officer. Public Affairs updates are provided regularly to Anthem's Board of Directors.
- ★ The Audit Committee of Anthem's Board of Directors reviews, at least annually, the Company's political strategy, contributions and activities and oversees compliance with the Company's policies and procedures regarding political contributions and activities. The risks associated with political and lobbying activities are managed in accordance with Anthem's enterprise risk management framework. In addition, Anthem's Internal Audit Department assesses the risk related to political giving within its annual risk assessment process, has performed reviews in the past, and will perform additional reviews as deemed appropriate.

## CORPORATE POLITICAL CONTRIBUTIONS

While federal law prohibits Anthem from making corporate contributions to federal candidates, Anthem makes direct contributions to support state candidates, political parties, political action committees and ballot measures in those states where such corporate contributions are allowed by law and may make in-kind contributions, such as hosting a reception and paying expenses associated with the event.

Certain criteria are considered in making corporate political contributions, including the following which have been endorsed by Anthem's Board of Directors:

- ★ Supports public policy that promotes private competition, choice and free markets in the delivery and financing of health care;
- ★ Voting record or announced positions on issues important to Anthem and its customers;
- ★ Demonstrated leadership on key committees of importance to our business;
- ★ Impact of contribution in a state or district where Anthem has a large concentration of employees and/or customers;
- ★ Impact of contribution on the campaign.

Throughout the year, members of Anthem's public affairs organization make recommendations for corporate contributions. The senior vice president of Public Affairs of the company must approve each corporate contribution. Other members of the public affairs organization involved with political contributions include the vice president of State Affairs, the vice president of Federal Affairs and their direct reports. In making corporate contributions, Anthem complies with all disclosure requirements as prescribed by state and federal law.

# Policy on Participation in the Public Policy Process

## ANTHEM POLITICAL ACTION COMMITTEE CONTRIBUTIONS

Anthem provides an opportunity for eligible Anthem associates, as defined by federal and state law, to participate in the political process by sponsoring the nonpartisan Anthem, Inc. Political Action Committee (“Anthem PAC”), which allows them to voluntarily combine their personal funds to support federal and state candidates, political parties and political committees. Anthem PAC’s disbursement of funds is made in accordance with an annual budget, and the same contribution criteria identified for corporate contributions is considered in determining Anthem PAC contributions.

Throughout the year, members of Anthem’s public affairs organization and associate PAC members offer recommendations for Anthem PAC contributions. Anthem PAC contributions are approved by the senior vice president of Public Affairs of the company. Anthem PAC operates pursuant to all relevant state and federal laws, and complies with all public disclosure requirements. Information about Anthem PAC’s contributions may be found on the Federal Election Commission’s website.

When participating in the political process, Anthem associates must comply with the company’s ethics and compliance requirements identified in the “Standards of Ethical Business Conduct,” which is available on our website. This document sets forth appropriate associate conduct relating to political activity and contributions, as well as interactions with government officials and regulatory agencies to avoid conflicts or perceived conflicts of interest.

## ANTHEM TRADE ASSOCIATION MEMBERSHIPS

Like most major corporations, Anthem is a member of a number of national and state industry and business trade associations (organized under section 501(c)(6) of the Internal Revenue Code) to help advance our public policy agenda and related business goals. Anthem believes that membership in these associations is generally consistent with the company’s interests and plays a valuable role in bringing a collective voice to the process. Anthem also understands that not all members of an association will come to agreement on every issue. Anthem directly communicates its public policy positions to trade associations to inform their positioning; however, those associations’ may take positions that do not reflect Anthem’s position or they may take positions on issues for which Anthem has not taken a position. Even when Anthem does not share the view of one of these associations, we believe that membership is worthwhile because these associations encourage dialogue and help to move the industry to a consensus on important policy issues. However, Anthem does take these situations into consideration annually when determining annual membership. Payments to industry and business trade associations are subject to the same “Core Principles for Participation” and Audit Committee review and oversight.

# Lobbying Activities

Anthem engages in lobbying activity to advocate our position on public policy issues with elected officials and others in federal and state government. These are issues that affect our company, our associates and, most importantly, our customers. Anthem spent approximately \$7.4 million on state lobbying activities<sup>1</sup> and \$6.1 million on federal lobbying activities.<sup>2</sup>

The senior vice president of Public Affairs of the company has oversight responsibility for all lobbying activities and expenditures. Other members of the Public Affairs organization involved with lobbying include the vice president of State Affairs, the vice president of Federal Affairs and their direct reports. Anthem complies with all disclosure requirements as prescribed by state and federal law. Lobbying activities generally include communications with elected federal and state officials, agency officials, or other legislative and regulatory officials for the purpose of influencing legislative or administrative actions.

In 2015, Anthem paid membership dues to national and state business and trade associations of which a portion may be allocated to non-deductible lobbying activity and political expenditures. Below is a list of the national and state business and trade associations whose membership dues were \$50,000 or more for 2015, including the portion allocated to non-deductible lobbying activity and political expenditures. Some trade associations engage in activities beyond public policy advocacy, thus this report specifies the portion of dues used for lobbying and political expenditures.

<sup>1</sup>State laws vary on how they define lobbying activity, expenses and what is reportable. For purposes of this report, state lobbying expenses include applicable percent's of associate compensation and overhead and outside lobbying consultant fees as tracked and reported by Anthem's Tax Department.

<sup>2</sup>Federal lobbying expenses are reported as required by the Lobbying Disclosure Act of 1995 and the Honest Leadership and Open Government Act of 2007. Visit <http://soprweb.senate.gov/index.cfm?event=selectfields> to search for copies of Anthem's Lobbying Disclosure Reports filed with the U.S. Congress.

<sup>3</sup>The annual membership dues are reported based on the calendar year in which they are paid. The portion of annual dues allocated to non-deductible lobbying and political expenditures is based on the percent or amount provided on the annual dues invoice by the organization listed.
